- Fixing the cross browser defects since IE8 times.
- Working with Git and svn version control
- Experience in working with Audio, video elements in the web ( ) JW Player, HLS) and 360 video.
- Working in sublime and vs code.
- Experience in working with geographically distributed and diverse team.
- Worked in Agile SCRUM and waterfall methodology.
- Experience in working with express, mongodb and nodejs.
- Basic BE experience in java.

## Certification

 Microsoft certified professional for programming in HTML5 using JavaScript and CSS3.

## Education

 Bachelor of Engineering (DISTINCTION) in Electronics and Communication from Crescent Engineering College, Chennai , India - 2010.

## Interests

- Latest web technologies and trying to match the web with native app like experience with PWA (SW, background sync) and performance optimization for web
- Learning more about the Server environment especially Linux environment and containers and How the internet works(TCP, DNS, HTTP Protocols). Reading more about that and doing small projects.
- Following latest trends and techniques of front end in Twitter my profile is @shmdhussain12
- Doing small cool stuffs and automating tasks in terminal and learning about inner workings of the tech which I am using.
- Reading books especially book apart series, recent book is "Responsible Javascript" by Jeremy Wagner and reading now is "using svg in html5" by Amelia and favorite is "professional JavaScript for web developers" by Nicholas Zakas and Dr Axel's "JavaScript For Impatient Programmers"
- Tinkering with devtools and latest cool things found is puppeteer scripts through recording user actions in chrome .
- Watching conference talks to get to know about trends and latest advancements.
- Learning new tech and trying to dig deep in tech and teaching and sharing with others what I know.
- Automating the repeated boring tasks.
- Playing and watching football and playing fanatsy and rest of time be with friends and family.

## About Me

 Husband. Father. From Chennai India.

## In progress

-  Personal blog with 11ty , mongodb express, pug
-  Making the hands dirty with AWS and cloudflare edge workers
-  giving a try for google mobile web specialist certification and aws certification
